

PALESTINE COUNTRY REPORT

THE STATE OF THE
HUMANITARIAN SYSTEM 2026

ACKNOWLEDGEMENTS

The research team extends its deepest gratitude to the people of Gaza, who have endured unimaginable suffering. They have shared their experiences with courage, honesty and dignity – first and foremost, this report is a reflection of their voices.

We are also sincerely grateful to the humanitarian organisations and practitioners who contributed their testimonies and perspectives on how they have navigated an exceptionally constrained and challenging operating environment. While this report critically examines systemic performance, it equally recognises the extraordinary efforts of many actors working under extreme conditions.

Special appreciation goes to the [Arab World for Research and Development's \(AWRAD\)](#) Gaza-based researchers, who, while themselves navigating displacement and daily hardship, continued to conduct interviews, transcribe accounts and document experiences with care and integrity.

We also thank teams from the [Active Learning Network for Accountability and Performance in Humanitarian Action \(ALNAP\)](#) and from The Hague Humanitarian Studies Centre, particularly Kaira Zoe Canete for her extensive support in shaping the writing of this report. Additionally, we thank Linda Ahimbisibwe, Kholoud Mansour, Jennifer Doherty, Lydia Tanner and Gabriela Anderson Fernandez for their thoughtful review, guidance and sustained support throughout the research process.

This report was written by Fidaa Mergani, with technical leadership from Dr. Nader Said and support from Samer Said, Nala Foaahaa, Ashraf Jerjawi, Dr. Ghassan Abu Hattab, Baraa Karajah, Ibtisam Bawab, Reda Sahyoun and the AWRAD team.

Disclaimer: This report was wholly authored by our research partners. The contents, conclusions and recommendations contained herein reflect the opinion of the authors and their interpretation of the data collected in each country, not necessarily those of ALNAP.

ABOUT AWRAD

AWRAD is a leading independent research and evaluation organisation based in Palestine, with a strong operational presence across Gaza and the West Bank. AWRAD operates through field teams across all governorates, delivering timely, high-quality and ethically grounded data in a highly constrained environment. With deep local roots and established trust within communities, AWRAD supports humanitarian actors, United Nations (UN) agencies and development partners with reliable evidence to inform response, even amid active conflict, displacement and access restrictions.

About ALNAP's State of the Humanitarian System report

Humanitarian action can be a lifeline to people experiencing the worst that conflict and disaster can inflict. For over a decade, ALNAP's [State of the Humanitarian System report \(SOHS\)](#) has provided a unique, evidence-based understanding of the system and how well it works for affected people. Based on a huge body of evidence including exclusive research with crisis-affected people and practitioners, SOHS addresses key questions about performance and effectiveness in areas such as hunger and mortality reduction, as well as giving a comprehensive picture of funding, resource flows, staffing and organisations. Consultations with people affected by crises were central to the research from the outset, and shaped the focus of the report.
